

FAUSTINO GNAVI

Information Systems Engineering | Systems Analyst

Munich, Germany | faustinognavi@gmail.com

LinkedIn: linkedin.com/in/faustino-gnavi | Portfolio: faustinognavi.vercel.app

Italian Citizenship (EU) | Driving License Class B

PROFILE SUMMARY

Systems Engineer and Systems Analyst with hands-on experience in software development, data analysis, and process optimization. Solid knowledge of Python, C#/.NET, JavaScript/TypeScript, and databases (SQL Server, PostgreSQL, MySQL). Experience with AI-based applications (OpenAI, LLM integration) and simulation models (AnyLogic). As an Italian citizen, I hold unrestricted work authorization within the European Union. I am fluent in Spanish and have advanced English proficiency (C1), while currently improving my German (A2).

WORK EXPERIENCE

IT Optimization and Electronic Invoicing – Internship

04.2026 – 06.2026

Anser Telefonía Importación, Rosario, Santa Fe, Argentina

- Comprehensive optimization of the company's IT infrastructure and SQL Server databases.
- Developed a .NET desktop application to manage electronic invoices with QR code integration.

MAIN ACADEMIC PROJECTS

Sports Injury Management System – Final Thesis (Systems Engineering)

2025 – 08.2026

- Designed and developed a system for registering, managing, and tracking rehabilitation of sports injuries.
- Technologies: Flutter · Dart · Next.js · PostgreSQL · Python · OpenAI API · Git
- Developed modules for injury prediction, data analysis, and an integrated chatbot.

WPC Management System – Capstone Project (Development Analyst)

2024 – 03.2026

- Developed a system for production management and plant planning.
- Produced the complete technical documentation for the project.

Expert System (React) – Sports Injury Analysis

03.2025 – 10.2025

- Used an LLM to interpret user queries in natural language.
- Data-driven analysis of sports injuries to support prevention and treatment.
- Technologies: LangChain, OpenAI LLM, Gradio, SQLite, Pandas, Matplotlib.

Integrative Practicum in Data Science

03.2025 – 07.2025

- Optimized an email marketing strategy for the launch of an exclusive bicycle line.
- Applied the CRISP-DM methodology along with decision trees, KNN, LDA, and logistic regression.
- Cluster analysis using K-means, hierarchical and two-step methods, and PCA.

Line-Following Robot

03.2024 – 06.2024

- Built, programmed, and optimized an autonomous line-tracking system using Arduino.

Veterinary Clinic Management System

03.2023 – 11.2023

- Developed an application using C# (.NET Framework) and SQL Server.
- Implemented CRUD functionality for client and pet records.

EDUCATION

Information Systems Engineer, Universidad Tecnológica Nacional (UTN)

2021 – 08.2026

Rosario, Santa Fe, Argentina — GPA: 7.5/10

High School Diploma, Gymnasium "Los Arroyos"

2008 – 2020

Rosario, Santa Fe, Argentina — GPA: 7/10

LANGUAGES

Spanish: Native

English: Advanced (C1)

German: Basic (A2) – Reaching B1

OTHER PROJECTS

Business Management Practicum

03.2025 – 07.2025

- Produced a report on transitioning from physical to digital inspection stickers at a vehicle inspection facility.

Structured Cabling

03.2024 – 11.2024

- Planned the cabling of a data center for an insurance provider.
- Optimized the efficiency and organization of the facilities.

Staffing Levels in a Hardware Store – Simulation Project

08.2024 – 12.2024

- Simulation for staff optimization using AnyLogic software.
- Analyzed and improved wait times and inventory levels.

IT Entrepreneurship – Campus AR

03.2024 – 11.2024

- Developed a mobile app with augmented reality and interactive maps for navigating the university campus.

Test Automation

08.2024 – 11.2024

- Created an automation script for software testing.

Practical Simulation Exercises

03.2024 – 11.2024

- Developed pseudo-random number generators using various probability distributions.
- Simulated an M/M/1 queueing model and an inventory model.

TECHNICAL SKILLS

Programming Languages: Python (Pandas, Matplotlib, APIs), C# (.NET Framework), JavaScript, TypeScript

Web Development: Angular, Next.js, Nest.js, HTML5, CSS3

Mobile Development: Flutter, Dart

Databases: SQL, MySQL, PostgreSQL, SQL Server, database design and modeling

Data & AI: IBM SPSS Modeler, IBM SPSS Statistics, MATLAB, OpenAI/LLM integration, exploratory data analysis

Systems Analysis & Design: UML, use cases, user stories, object-oriented programming

Simulation: AnyLogic, queueing models, process optimization, inventory simulation

IoT / Hardware: Arduino, robotics

Design: Figma, Axure

Version Control & Methods: Git, GitHub, Agile methods/Scrum

SOFT SKILLS

Teamwork, problem-solving, effective communication, active listening and empathy, time management, proactivity and initiative, creativity and innovation, working under pressure, sense of responsibility, systems thinking, open-mindedness.

INTERESTS

Gym, running, motorsport, aviation/aircraft.
